KHB "G" Series Hydraulic Breaker Master Parts Manual

- The policy of Kent Demolition Tools is one of continual improvement. We reserve the right to change design, materials, or specifications at any time, without notice or creating any obligation to previous or future customers.
- The information contained in this manual is provided at no charge to the customers of the Kent Demolition Tool Company, a Division of Gougler Industries, inc., Kent, Ohio.
- We hereby grant to our customers the right to reproduce individual pages, electronically or by photocopy, when used in support of the Kent product described herein, provided that no changes are made to the material information, no reproductions are sold, and no part of this manual is incorporated in any publication without the specific written permission from the Kent Demolition Tool Company.

KENT'S COMMITMENT TO ITS CUSTOMERS

For over 30 years, Kent has been dedicated to designing and manufacturing a broad line of top-performing, quality tools for the demolition and construction industries. We are continuously gathering experience from many work areas and using that experience to manufacture the best tools available to meet the needs of ever-changing market requirements.

Kent demolition tools have been designed from the inside out to deliver the rugged and dependable day-in and day-out performance you need to get the job done, to minimize downtime, and to keep the job moving on budget and on schedule. With our wide choice of hydraulic hammers, pneumatic hammers, concrete crushers, pedestal units, compactor/drivers, hand-held tools and accessories, you can always choose the right combination for maximum job productivity.

Kent supports you every step of the way with things like on-site engineering for custom design work, two strategically located warehouse facilities with extensive tool inventories assuring on-time deliveries, experienced parts personnel who know how to listen, and a nationwide distribution network for fast-access sales and service. These are just a few of the reasons to rely on Kent to satisfy all of your demolition requirements.

Sincerely,

Kent Demolition Tool Co.
